

## **FOR IMMEDIATE RELEASE**

### **Faribault Area Chamber of Commerce to Host Annual Business Awards Luncheon**

The Faribault Area Chamber of Commerce invites the community to join in celebrating outstanding local businesses and organizations at the Annual Business Awards Luncheon.

This year's event will recognize award winners and finalists who have made meaningful contributions to the local economy and community. Honorees are selected through a community nomination process, ensuring that recognition reflects the perspectives of those who engage with and benefit from their work.

"Each of these award recipients and finalists plays an important role in our community," said Casie Steeves. "These awards are a way to recognize a wide range of contributions—from customer service and education to long-standing business and nonprofit partnerships—and to celebrate the collective impact they have on strengthening our local economy and community." The Business of the Year recipient will be announced live during the event.
